

LESS IS MORE. THE NEW LAYHER FIPRO SCAFFOLDING DECK.

TRUST THE
INNOVATION LEADER

**22% lighter!*

SPEEDYSCAF® ALLROUND® SCAFFOLDING ROLLING TOWERS/LADDERS PROTECTIVE SYSTEMS EVENT SYSTEMS

The FIPRO Deck made of glass-fibre-reinforced plastic (GRP) sets new standards in scaffolding construction:

- ▶ **Lightweight.** Low weight permits faster assembly and dismantling plus easier transport.
- ▶ **Strong.** Non-slip surface and high stiffness ensure a sure footing.
Approved up to load class 3, including use in standard brick guards.
- ▶ **Robust.** Resistance to UV, ageing and weather effects, and imperviousness to the chemicals usually found on construction sites, guarantee long-term use.

The *weight saving compared with a Robust deck 3.07 m long is 5.4 kg (22%).
Trust the innovation leader when it comes to making your day-to-day work easier.
